

PowerAck 50 – Universal External Battery

This Tekkeon equivalent external universal battery can be charged from a mains power socket (220V), a cigarette lighter socket (12V) or from a solar panel.

This battery has been manufactured with high quality components. It conforms to the exact specifications of the original manufacturer and the battery is guaranteed against all manufacturing defects.

For all batteries a margin of 0.1V difference in the voltage is safe. If the capacity (Ah) of the battery is higher than the capacity of the original battery it will enable a longer life expectancy.
