Thuraya XT-DUAL

All new.
All knowing.

One SIM, one number and one phone to travel the world.

The Thuraya XT-DUAL is a combination of a GSM and satellite phone that comes with splash water and dust protection and is shock proof.

The dual mode capability is designed for those who travel the world and need a network connection wherever they go.

It conveniently uses either a GSM or a Thuraya satellite network and cleverly shifts between them upon availability.

Travelling the world in GSM and satellite mode!

THURAYA
stay close

It makes the future look so old.

GSM and satellite capabilities in one phone

Designed for people who travel in and out of GSM reach, the XT-DUAL holds the solution to the necessity of carrying multiple phones and SIM cards when constantly on the move. It operates efficiently whether it is connected to a GSM network or to Thuraya's powerful satellite network, and is capable of altering between them to adapt to the needs of frequent travelers.

Supported by the most robust and powerful satellite network

Thuraya's satellite network is renowned for being the most powerful satellite network that covers more than 140 countries or 2/3 of the globe.

Splash water, dust and shock proof. Certified for toughness

Thuraya XT-DUAL holds an IP64/IK03 ingress protection rating, which means the phone is splash water, dust and shock proof. The latest durable polycarbonates are used for the outside case and aluminum to shield the inside components. Rubber seals on all plugs protect from water and dust.

Fastest internet on-the-go

Built to exceed expectations and raise the standards, the Thuraya XT-DUAL has a built-in web browser for internet surfing directly on the phone.
Thuraya XT-DUAL offers the fastest data speeds on any satellite enabled phone.
In addition, the Thuraya XT-DUAL can be connected to a PC or Laptop which can then be used to browse the web and send/receive e-mails.

It follows wherever you may travel.

- GPS waypoint navigation with tracking capabilities
- Emergency SMS function
- Bluetooth
- Battery saving technology for long lasting batteries
- Advanced outdoor display with brightness sensor
- High Penetration Alerting (receives satellite calls even with retracted antenna)
- Lightweight and small in size
- PC synchronization
- Messaging via SMS, e-mail, MMS, Fax
- Multiple smartphone applications
